#### Synopsis

§ 14.01.	<b>Regulation of Coal Mines Under the Clean Air Act (CAA)</b> .....	<b>485</b>
§ 14.02.	<b>Regulation of Greenhouse Gases Under the CAA</b> .....	<b>487</b>
	[1] — <i>Massachusetts v. EPA</i> .....	487
	[2] — Johnson Memorandum .....	488
	[3] — Endangerment Finding .....	489
	[4] — EPA Finalizes Light Duty Vehicle Rule.....	489
	[5] — Tailoring Rule .....	490
§ 14.03.	<b>Greenhouse Gas (GHG) Reporting Rule and Underground Coal Mines</b> .....	<b>491</b>
§ 14.04.	<b>Clean Air Act Permitting Program</b> .....	<b>492</b>
	[1] — The New Source Review Permitting Program.....	493
	[a] — Emissions Control Standards .....	494
	[b] — Major Sources .....	494
	[2] — Title V Permitting .....	494
§ 14.05.	<b>How Could the Tailoring Rule Affect Coal Mines?</b> .....	<b>496</b>
	[1] — Applicability.....	496
	[2] — Possible Implications .....	499
	[a] — Defining “Stationary Source” .....	499
	[b] — Best Available Control Technology (BACT) .....	500
	[c] — Fugitive Emissions .....	504
	[d] — What Constitutes a “Major Modification”?.....	506
§ 14.06.	<b>How Are State Permitting Authorities Applying the Tailoring Rule to Coal Mines?</b> .....	<b>508</b>
§ 14.07.	<b>Conclusion</b> .....	<b>509</b>

#### § 14.01. Regulation of Coal Mines Under the Clean Air Act (CAA).

Under the Clean Air Act (CAA), the United States Environmental Protection Agency (EPA) regulates emissions of regulated air pollutants from “stationary sources.” Historically, coal mines have not been considered
